

QUALITY * SERVICE * INTEGRITY
FOR OVER 40 YEARS

THE CATAMARAN

1-800-327-4792

Our skilled craftsman hand design all custom ear pieces for a precise fit. The Catamaran is a custom fit ear prosthesis that offers excellent protection for swimming, myringotomy, PE tubes, or any problems associated with Otitis Externa or Otitis Media, and can also double as hearing protection with a 28dB NRR rating. Our plugs are fabricated using the JB1000 medical grade silicone that offers a unique flexibility and softness.

We offer a variety of fun colors for children as well as adults. Precision also does an excellent ear piece for the receiver in canal and slim tube fittings as well as other custom earmolds.

We accept Medicaid and honor all Co-Op pricing.
